Carol and Tom Doyle

Melissa and Jackson Doyle

Dear Virginia and Dale,

My memory of you goes back to our dual family trip from Michigan to Texas when I was five years old. From then until now, I feel a closeness to you. You have always welcomed us as family from when we were children and now as adults.

Dale, one of the reasons that you will always be special to me is that you were a friend of my Dad's. I know that his memory is kept alive in you. Our photo is taken in front of the piano that my Grandma McArtor bought for him.

Congratulations as you celebrate your 50th Anniversary with family and friends. We certainly will be thinking of you!

With love, Carol, Tom, Melissa + Jackson Doyle

Dear Bryan + Sharon:

I wanted to type this and kept hoping I could. But things are getting in a worse mess than "cleared up". I can't move things very well so it takes me longer than it used to.

Buty + I would love to come but need a place to sleep. An timeshare at Tahoe is only a certain time, not all year.

I am going to give you a reminder of my visit in the 2001 + 2. Bryan gave me such a good time. Virginia may not remember as well as I do but may be sketched.

Dorothy

The 200

When I used to go on in the summer. Aunt Bessie would rent a cottage on the beach so Mother could take care of Billy Raulo. Virginia, Dorothy + I used to go out all along the beach. I met lots of sea shells in those days. Some live on the bidge + in + on the cliff toward along the top of the cliff. They took pictures of beach. One time they took me over a huge sewer pipe. Remember looking down into the rocky canyon. The joints of pipe were something to grip and over one day on a pipe + the beach.

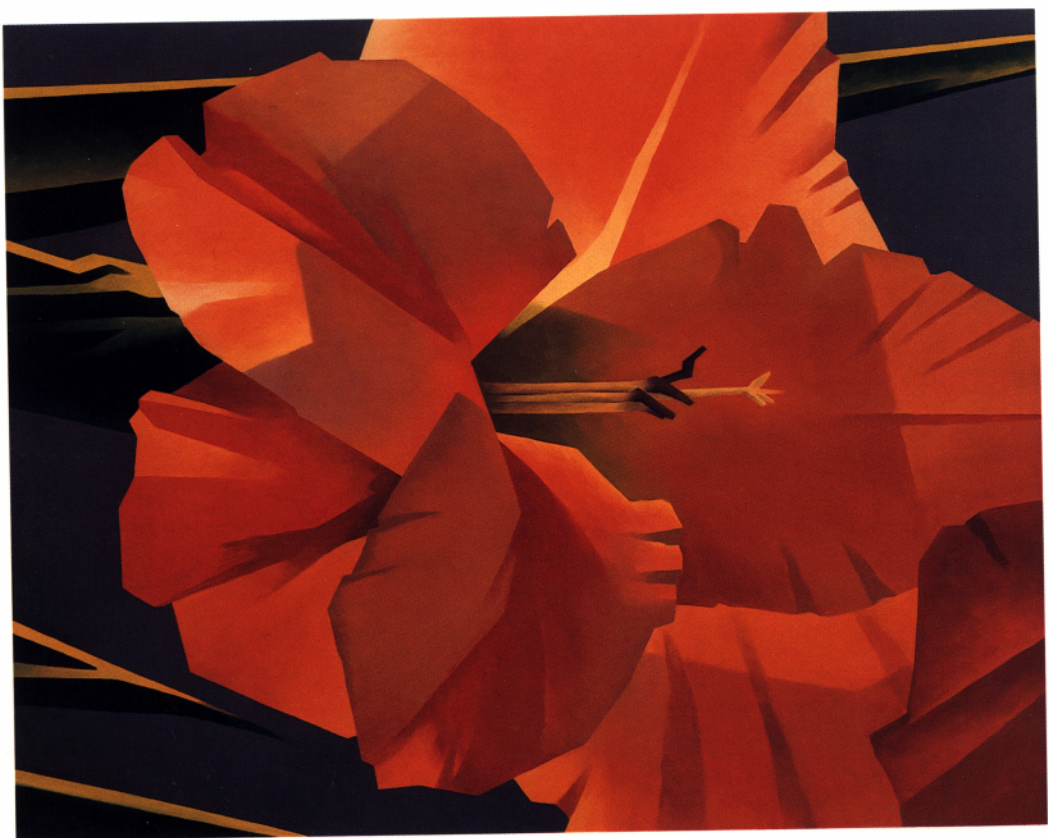

at the border. Strange place.

Mexico's living green hills
+ on side Laguna's water tide.
Sandy side and sandy to shore
Sharks + Sting rays in the deep's
hole in the sand with the sharks +
having fun with Sting rays. Pulling
a stick in muddy mud +
watching them tail come up and
pull it.

at one time they lived on top of
a hill toward the sea. A Sunday
we went down to hill to the shore
which was in middle between

2 roads ~~from the road~~ ^{to the sea} ~~to the sea~~ ^{to the sea}
parks, then go north to sea,

Dear Virginia and Dale

With considerable pleasure we look back over the many years that we have known and worked with you. Emily remembers Virginia's dedicated service to the Girl Scouts. Emily was Leader of the various Brownie, Junior, Cadette, and Senior Troops. We do not remember Virginia's title in the Girl Scout organizations, but she was constantly helpful. She was always available when needed. Through her work with the Girl Scouts, Virginia enriched the life of many young girls in the Monterey area.

Allen and Dale sat through many Chairman's meetings at the Naval Postgraduate School. Some of the meetings were long and less-than-interesting. Dale unceasingly looked at the bright side and provided statesman like viewpoints. Professor Leipper was a professor's professor with excellent advice to the gathered assembly of Chairmen. Emphasis is on the statesman like nature of Dale's participation.

When some of the Professors at NPS, including Allen, were conducting tests with man-made, instrumented icebergs to determine ablation properties under tow, help from the *Acania* was needed at the Coast Guard wharf. The *Acania* was Dale's ship. The excellent support from the *Acania* was due to Dale's cooperation.

Virginia and Dale, you have reached a significant milestone in the cycle of life having been married for 50 years. We are about ten years behind having celebrated our 40th wedding anniversary recently. We wish you a happy 50th anniversary and many more anniversaries to come.

Emily

John and Joan Griffiths*

February 1992

Dear Virginia and Dale

Sweet I could come to your party, as you would have come to Al's mine March 11, 1981 if you hadn't left us some years before -

We always enjoyed both of you - I remember that Al & I called on you when you first moved here and lived on Inwood, I think - It was the beginning of many pleasant times -

The Griffiths are on sabbatical - in Australia in fact. I offered to send the picture of the three of us taken last spring on Mother's Day. They send their best wishes.

Congratulations and my love,
Audie Folweiser

25th April '92

Dear Bryan & Diane.

Thank you very much indeed for your lovely invitation to the reception on Sat. 16th May to celebrate your parents' Fiftieth Wedding Anniversary.

It is with regret that we shall not be able to attend. The distance and the fact that we shall just have departed for England are the factors preventing us. However we shall be with you in our thoughts and we know it will be a glowing golden day for all of you.

We hope that the response to your earlier request at the end of last year has reached you.

For the past four months we have scarcely been at home due to extensive travels in Australia, New Zealand, Hawaii and at present in Asheville, N.C. where John is advising a group at the National Climate Center.

We hold your parents in the highest regard and indeed if it hadn't been for your Father we would never have come to make Texas our home. He engineered a force which became a turning point in our lives, which we have never regretted and can only feel grateful.

Our heartfelt good wishes to them on the occasion of this very high point in their lives.

We trust they are in good health.

Again our most sincere thanks.

Joan John
